

Self Scored Rubric – This is a PDF version of the rubric for this project indicating what our team feels it has scored in each section.

Scoring Rubric

The following rubric will be used to score the final project.

Grading Rubric

Project Attribute	0 Points	2.5 Points	5 Points	10 Points* (*multiplier possible)
--------------------------	----------	------------	----------	--------------------------------------

Declaration of team members and roles	Deadline missed	Submitted on time per project requirements. ✓		
Team Contract	Deadline Missed	Submitted on time and meets all project requirements ✓	.	
Abbreviated Project Charter	Deadline Missed		Submitted on time and meets all project requirements. ✓	
Requirements Spreadsheet	Artifact is very light and appears to have been hastily put together at the last minute.	Contains only 1/3 of all project requirements as outlined in the RFP.	Contains only 2/3 of all project requirements as outlined in the RFP. ✓	Contains an exhaustive list of all project requirements as outlined in the RFP ✓
UAT Form	Artifact is very light and appears to have been hastily put together at the last minute.	Submitted on time per project requirements. ✓		
Assumptions Log	Artifact is very light and appears to have been hastily put together at the last minute.		Submitted on time per project requirements. ✓	
WBS	Artifact is very light and appears to have been hastily put together at the last minute.	(10 pts.) WBS contains 1/3 resources and tasks that reflect the reality of the RFP and the Gantt chart is not a realistic approach to the project.	(20 pts.) WBS contains 2/3 resources and tasks that reflect the reality of the RFP and the Gantt chart is a somewhat realistic approach to the project.	X4 Multiplier (40 pts.) WBS contains all resources and tasks that reflect the reality of the RFP and the Gantt chart is a realistic approach to the project. ✓
Network Diagram	Artifact is very light and appears to have been hastily put together at the last minute.		Submitted on time per project requirements. ✓	
Critical Path Calculation (incorporated into the network diagram)	Artifact is very light and appears to have been hastily put together at the last minute.	Submitted on time per project requirements. ✓		
Client Acceptance Form	Artifact is very light and appears to have been hastily put together at the last minute.	Submitted on time per project requirements. ✓		
Project Attribute	0 Points	2.5 Points	5 Points	10 Points* (*multiplier possible)
Cash Flow Forecast	Artifact is very light and appears to have been hastily put together at the last minute..	(10 pts.) Cash Forecast takes into account 1/3 of all income and revenue streams and somewhat reflects the assumptions provided. It realistically takes into account all timing issues associated with the project.	(20 pts.) Cash Forecast takes into account 2/3 of all income and revenue streams and mostly reflects the assumptions provided. It realistically takes into account all timing issues associated with the project.	X4 Multiplier (40 pts.) Cash Forecast takes into account all income and revenue streams and accurately reflects the assumptions provided. It realistically takes into account all timing issues associated with the project. ✓
Risk Register	Artifact is very light and appears to have been hastily put together at the last minute.		Submitted on time per project requirements.. ✓	

Risk/Probability Impact Matrix	Artifact is very light and appears to have been hastily put together at the last minute.		Submitted on time per project requirements. ✓	
Total Bid Profile	Artifact is very light and appears to have been hastily put together at the last minute.		Submitted on time per project requirements. ✓	
Overall Professionalism	The overall submission is very light and appears to have been hastily put together at the last minute.	(5 pts.) A mediocre submission that would be accepted in industry with significant edits and modifications.	(10 pts.) A good submission that would be accepted in industry with some edits and modifications.	X2 Multiplier (20 pts.) A very professional submission equal to what is found in industry. ✓
Overall Effort	The overall submission is very light and appears to have been hastily put together at the last minute.	(5 pts.) This submission illustrates that some time effort has been put in by the team.	(10 pts.) This submission illustrates that good time effort has been put in by the team.	X2 Multiplier (20 pts.) This submission illustrates that significant time effort has been put in by the team. ✓
Self Scored Rubric	Not submitted.	Submitted on time and meets all project requirements ✓
